SKN BFD SK11

GENERAL

Art. no.:	L-0543-2
EAN:	4030281004493
Standard:	CNB/P/11.075 EN 353-2:2002

E-class number:	40-02-01-07
Customs no.:	84799070

Data sheet

SKN BFD SK11

Our SKN BFD SK11 is a guided-type fall arrester with a compact energy absorber that makes it suitable for universal application in numerous areas.

It has been tested for user weights up to 140 kilograms and is used primarily for vertical ascents on 11-mm ropes.

Horizontal work on building edges is also possible, as it has been edge tested in accordance with RFU CNB/P/11.075 - Rev. 2.

- Integrated fall arrester for user weights up to 140 kg
- Edge tested acc. to RFU CNB/P/11.075 - Rev. 2

FEATURES

Diameter:	11,00 mm
Hand-washing:	40 °C
Suitable for edges:	yes
Max. service life:	10 Years
Max. number of persons:	1
Rated load:	140 KG
Temperature:	from 40 °C to -35 °C
Suspension element:	KM11

DIMENSIONS

Size:	2m
Weight:	1,40 kg

HARDWARE

Carabiner on device: FS 51 ST

Carabiner on rope: H-121

MATERIAL

Webbing material: Polyamide

Rope material: Polyamide
