

PRODUCT NUMBER: 1011333
**Flex Seal Blue, Clear FogBan
lens, Fabric Headband**

Honeywell

Overview

Reference Number

1011333

Product Type

Eye and Face Protection

Range

Goggles

Line

Flex Seal

Brand

Honeywell

Brand formerly known as

PULSAFE

Industry

- Industry
- Automotive and Part Manufacturer
- Building and Construction
- Chemical Industries
- Food Industries
- Foundry
- Industrial Cleaning
- Laboratory
- Maintenance
- Medical and Pharmaceutical
- Water treatment

Product Use

Automotive Industry, Building Industry, Cold Insulation, Food Industry, General Industry, Heavy Industry, Manufacturing, Outdoor Work

Features & Benefits

Feature

Soft silicone body for individual perfect fit Our research led us to silicone, a material never used before in an industrial goggle. Lightweight, flexible and able to provide the most airtight fit there is, silicone simply is the best material for the job.

Benefit

Silicone makes the difference because it: • is very comfortable to wear for long periods of time • remains soft and supple in different temperatures • conforms to any facial profile thus ensuring a snug slip-free fit • wears better and doesn't move when the wearer sweats, being both temperature and heat-resistant.

Feature

Smart design for ultimate comfort The genius of the Flex Seal goggle lies in its simplicity

Benefit

• Personally adjustable frame with pivoting clips and adjustable headband for fast and easy fitting. • Easily detachable clips to quickly remove the headband and lens in order to clean the goggle components. • Indirect ventilation system for channelling and directing air flow to minimize fogging. • Lightweight, sturdy and flexible frame. Combine all this with superior quality and you have the most comfortable goggle there is.

Feature

Wraparound lens for perfect panoramic vision We've taken everything we have learned as a market leader and turned it into this : The new Flex Seal premium goggle.

Benefit

• Large wraparound lens ensures clear, panoramic vision : a must for regular goggle wearers. • Very high quality lenses provide 99.9% UV filtration. • Wide range of lenses, all replaceable (Clear Fog-Ban, Grey Fog-Ban or IR shades 3 & 5). • Unique frame is designed to be compatible with prescription spectacles and/or half-mask respirators. Simple, but perfect!
