Data sheet

PHONE CABLE LONG

The PHONE CABLE LONG offers optimal flexibility and practicality when securing smartphones or tools from crashing or falling. The sturdy spiral rope coils together to about 55 cm and extends to about 165 cm. It offers enough flexing so that it's comfortable to operate a smartphone or be able to work with tools without removing it. The interior steel cable is extremely sturdy and contracts back to its original shape time and time again, even after heavy use. The small carabiner at the end of the band allows a tool to be easily attached to personal protective equipment. It can support up to 2.3 kg and is designed for smartphones or small tools such as screwdrivers.

- Optimal for smartphones or small tools up to 2.3 kg
- Sturdy, compact spiral rope
- Doesn't twist or wear out the cable, even when heavily used

DIMENSIONS

Size: 550x25x4,5mm

Weight: 0,09 kg
