

BEEFORD 01 ESD SRC low

SAP CODE

02010573 XX XXX

00 BLACK, GREY

DESCRIPTION

Lightweight occupational shoe in a modern, sporty design. The upper is made of breathable textile. The oil-resistant non-slip outsole is made of double-density polyurethane and ensures maximum safety at every step. In addition, the shoes are equipped with a comfortable inner insole, which guarantees comfort while walking. The absorption of energy in the heel area absorbs shocks and reduces the feeling of fatigue in the feet. The shoes do not contain metal parts and are equipped with the ESD function. Therefore, it is an ideal model for indoor spaces and sensitive environments, where it is necessary to prevent sparks from electrostatic discharge or for rooms equipped with a safety frame. Thanks to the modern materials used in production of this model, the total weight of the shoes does not exceed 410 g (half-pair size 42). Minimalist design and modern colors will go great with most of Cerva's workwear collection.
